

# Hong Kong

Marsh is one of the leading risk management and insurance consulting firms in Hong Kong. It was established in 1976 to service clients in Hong Kong, Macao, and China.

The services provided by Marsh in Hong Kong include insurance advisory and placement for all lines of insurance, loss control and prevention, claims management, total cost of risk analysis, risk mapping, strategic risk analysis, captive insurance development and management, and alternative risk transfer arrangement.

In addition to providing a full range of insurance brokerage and risk management consulting, the firm also offers employee benefits insurance services in Hong Kong and China.

The office serves all industries and specialises in:

- Claims Management;
- Construction;
- Financial & Professional Services (FINPRO);
- Marine;
- Risk Consulting; and
- Property and Casualty.

The Property and Casualty Practice comprises four major teams with different focuses:

## Global & Affinity Business

The Global business focuses on Marsh's global referral business, and Affinity business provides products or services for individuals or common interest groups, via a sponsor brand.

## Middle Market

This team focuses on locally driven business and provides professional advice on risk management, program structuring and broking services to small and mid-size operations in Hong Kong.

## Multinational Clients

The Multinational Team comprises professionals who focus on providing insurance consulting and broking services to Hong Kong -headquartered multinational corporations.

## Special Risks

The Special Risks team specialises in aviation, satellite launch and marine cargo insurance. It also fulfills clients' needs for property and casualty insurance and provides them with one-stop insurance and risk management service.
